Immediately after the abstract, provide a maximum of 6 keywords.

INTRODUCTION:

The Introduction presents the purpose of the studies and relationship to previous work in the field. It is not required to incorporate an extensive review of the literature. Use only recent references and provide the most salient information to allow the readers to understand and evaluate the purpose and results of the present study.

MATERIALS AND METHODS:

The Materials and Methods section should be brief and concise with sufficient technical information. Only new methods should be described in detail. Cite previously published procedures in References.

RESULTS AND DISCUSSION:

The Results section should include the rationale or design, optimization, validation of the experiments as well as the results of the experiments. Discussion section should focus on the interpretation of the results with proper justification. The Results and Discussion sections may be combined into one section.

CONCLUSION:

Conclusion section should be the brief of your complete research, materials, methods, results and discussions. It should be very brief detail.

REFERENCES AND FOOTNOTES

Maximum 35 to 75 references for original research paper/case study and review papers, respectively. References should be in APA format only.

CITATION IN TEXT:

Please ensure that every reference cited in the text is also present in the reference list (and vice versa). Citations in the text contain only authors' names and year of publication (Author, Year) [e.g. (Leker, 2001), (Bröring and Leker, 2006) or (Bröring et al., 2006) when three or more authors].

Full references have to be included at the end of the paper in numeric order using the following style:

ONLINE SOURCES:

[name of author], [first letter of first name] ([year of publication]): [title], available at [address of website], accessed [date of last retrieval].

McGill, M. (2005): Biotechnology company goes public, available at http://www.online-newscenter.com/biotech_comp_goes_publ.html, accessed 16 June 2008.

Journal names may be abbreviated according to Chemical Abstracts. Authors are fully responsible for the accuracy of the references.

TABLES AND FIGURES:

Tables must have titles and sufficient empirical detail in a legend immediately following the title to be understandable without reference to the text. Each column in a table must have a heading, and abbreviations, when necessary, should be defined in the legend.

Please number the tables.

Figures should have titles and explanatory legends containing sufficient detail to make the figure easily understood.

Appropriately sized numbers, letters, and symbols should be used. The abscissa and ordinate should be clearly labeled with appropriately sized type.

PUBLICATION:

The Executive Editor responsible for your submission might ask you to change the format of your files in order to publish it. If the manuscript does not fulfil the formal requirements, the paper might be denied publication. Errors in a published paper will be corrected in the Journal of Business Administration in "Additions and Corrections".

ETHICS:

International Education and Research Journal insist on ethical practices in both human and animal experiments. Evidence for approval by a local Ethics Committee must be supplied by the authors on demand. Animal experimental procedures should be as humane as possible and the details of anaesthetics and analgesics used should be clearly stated. The ethical standards of experiments must be in accordance with the guidelines provided by the regulatory agencies of the respective country of the authors. The journal will not consider any paper which is ethical A statement on ethics committee permission and ethical practices are included in all research articles under the 'Materials and Methods' section. Authors must be careful when they reproduce text, tables, or illustrations from other sources. Plagiarism will be viewed seriously.
